

**Rejuvenation Clay Formula V To Knit, To Build
Product Fact Sheet**

Ingredients: Green clay, purified water, Red Clover, Peppermint oil, Red Clover oil, Eucalyptus oil.

Benefits: This clay is a body rejuvenator and healer. It is excellent for the treatment of the skin, teeth, gums, and scalp. It can also be used to knit bones, ease sprains, and draw toxins from the body.

A closer look at Peppermint oil: Peppermint oil is good for cleansing the pores and thus decreasing their size which gives a smoother skin complexion. Oil is also soothing and cooling to the skin aiding in the improvement of skin problems. It is good for treating colds and flu's because it draws out toxins.

A closer look at Green Clay: Clay has been known since ancient times for it's healing properties. Clay draws toxins and impurities from the skin and pores, cleansing and healing skin irritations, scars, acne. Clay also helps to regenerate cells, so it is good for aiding in healing broken and sprained bones. Because clay draws toxins from the body, it can be used to cleanse bacteria internally from the gums, tonsils, and lymph glands as well as the womb. **A closer look at Red Clover & Red Clover oil:** Red Clover is known to be a blood purifier, which is good for improving skin conditions like acne, eczema and psoriasis. Use of Red Clover and Red Clover oil improves the quality of the blood circulated, aiding your skin and internal health. **A closer look at Eucalyptus oil:** This oil is used to ease muscle tensions, heal skin lesions and relieve pain. This oil also tightens pores and warms as it heals, giving a tingling sensation.

Clay Work in 21 Ways

Green clay is a body food made up of calcium, magnesium, potassium and zinc. Clay can be used internally and externally. Clay application: Generously apply clay over area cover with gauze, allow clay to dry thoroughly. To remove clay use warm water from shower, bath or sink, wipe or sponge off with warm wet washcloth.
